Notes: Results reported from Fremont Analytical work orders 2109394, 2109493, 2109508, 2110219, 2110251, 2110287, 2110360, and 2111114.
Remediation levels used for screening levels unless otherwise noted.

- Sample A3-SIDE101:5 is field-duplicate sample of A3-SIDE4:5.
- Sample A3-SIDE100:2 is field-duplicate sample of A3-SIDE18:2.

< Analyte was not detected; reported as less than the reporting limit (<RL).

Bold The detected concentration exceeds the project-specific screening level for the associated analyte.

E Result exceeds laboratory calibration range. Flag applied by the laboratory.

J Estimated concentration, detected greater than the method detection limit (MDL) and less than the RL. Flag applied by the laboratory.

J* Estimated concentration due to quality control failures. Flag applied by Shannon & Wilson, Inc. (*)

JH* Estimated concentration, biased high due to quality control failures. Flag applied by Shannon & Wilson, Inc. (*)

JL* Estimated concentration, biased low due to quality control failures. Flag applied by Shannon & Wilson, Inc. (*)

N* Laboratory noted that Gasoline Range Organics (C6 - C12) chromatographic patterns indicates that detections are due to the presence of unresolved, non-target compounds in the gasoline range. Results are not consistent with a known petroleum distillate. Flag applied by Shannon & Wilson, Inc. (*)

mg/kg = milligram per kilogram; PCB = polychlorinated biphenyl
